Forged Steel / Professional Quality GARDEN TOOLS

2022 Catalog

About these tools...

I grew up on a farm in southern Indiana. We had up to 10 acres of organic market vegetable gardens and Dad had a good assortment of tools for us kids to keep busy. Most of these tools were rather old, and of a high quality not often found in garden tools today...of course, I didn't care about that at the time, I just wanted to get that last 400-foot row of okra hoed!!

Only when I left home to start my own business (and garden!) did I realize the inferior quality of most garden tools on the market today. The bulk of them are poorly designed, which means more work for the user, as well as being "built to wear out" with poor quality materials and/or assembly procedures.

After a year of searching for something comparable to what I grew up with, I found the lines of mainly European forged /professional tools that I now offer in this catalog. These tools impressed me with their quality and craftsmanship; I have been using and selling them since 1994.

I'm happy to be able to offer tools that are comparable (or better, in some cases) to what I used on Dad's farm and also comparable in quality to the Walk-behind tractors we sell - when maintained, they will last a lifetime. —**MAKE SURE TO VISIT OUR WEBSITE TO SEE OUR FULL TOOL SELECTION...SOME SPECIAL-PURCHASE ITEMS MAY NOT BE SHOWN IN THIS CATALOG DUE TO VERY LIMITED SUPPLIES.—**

Happy Gardening!

Joel Dufour, owner, Earth Tools Inc.

Tools are arranged by BRAND, not tool type. Be sure to look at ALL brands before making your selections!

Prices and availability subject to change without notice—check our website for most current prices

Dewit is a 4th-generation Dutch tool forging company whose quality, craftsmanship and excellent ergonomic tool design we have found to be unparalleled. Founded in Holland by Wilhelm DeWit 1898, the company is now run by 3rd- and 4th-generation DeWits, to whom high quality is still top priority. DeWit has about 25 employees; in Europe it takes 7 years of training to become a certified tool forger. The Dutch forged steel is slightly harder than you will find in English tools (so they will hold an edge better), and the designs much more ergonomic(user-friendly). Just the handle length alone of the Dutch tools sells them... handles are 10 to 20% longer than their English Counterparts.

Tools have been forged at this same location (nestled in the Black Forest of Germany) dating all the way back to 1267 (not a misprint!), and they offer what is probably the largest selection of eye-hoes / chopping hoes in Europe. We can't possibly stock all the different styles SHW offers (about 50), but if you want a chopping hoe (eye-hoe) that you don't see here, let us know and we may be able to order it for you. SHW also offers a good selection of high quality rakes, forks, tined cultivators, scythes, brush tools and other items.

BARNEL USA
MANUFACTURER

For pruning and cutting tools, we offer the superb American-made Barnel line, and also some high-quality French-made Bahco tools, in the areas where we feel Bahco has superior products to Barnel. While the Felco® brand tools are a “standard of the industry” for some folks, we find that our product selections between Barnel & Bahco exceed even Felco quality and features.

Other Brands- To fill out our professional garden tool selection, we offer top-quality well-designed tools from **Rogue** (hoes made in Kansas from recycled disk blades), **Ammann** (Swiss made oscillating / stirrup hoes and digging fork), **Wilcox** (Iowa made stainless steel trowels), **Spear Head** (Connecticut made shovels) and a variety of other sources, including tools from **Gulland Forge**, a small Blacksmith & Leather shop operated by Larry Cooper and Karen Stack in North Carolina.

Warranty Information - All of these tools are professional tools and are intended to be used by farmers every-day to earn a living. As such, they typically carry a one year warranty against defects in materials and workmanship (unless specified otherwise in this catalog, or on tool or tool packaging). This warranty covers wooden handles as well; however, if handle shows evidence of overstressing, warranty is void. Wood has its limits. Guidelines are: If handle breaks and does not splinter, wood was bad or grain direction was improper or knot in wood: **WARRANTABLE**. If handle breaks and splinters, wood/grain was good and handle was simply overstressed: **NOT WARRANTABLE**. To obtain warranty coverage, photos of the broken tool and proof-of-purchase information must be provided to Earth Tools; in some cases, we may request that the tool be returned to us for inspection. Upon approval of warranty, Earth Tools will send you a replacement tool, postage paid, for no charge. This warranty also gives you specific legal rights, which may vary from state to state.

Tool Ordering Information - Please look through our selection and make a list of the tools you would like to order, and then call us at **502-484-3988** to place your order. We will ship your goods the most economical way (UPS, FedEx or via the Postal Service, depending on the tools) and add the shipping & handling charges (plus applicable sales tax) to the invoice. (NOTE: some tools can be shipped for less cost when disassembled [handle removed from head]. These tools re-assemble easily.)

We do **NOT** do gimmicks like offering “free shipping” and then charge high prices for the tools themselves to offset the shipping costs...we offer these excellent-quality tools at the best prices we can afford to, and then we add on the shipping cost it takes to get them from us to you, plus a marginal handling/package fee (boxes aren't free!) Orders can be placed by phone; we accept VISA, Mastercard, and Discover. (No online ordering at this time. We want to TALK to our customers!)

PLEASE NOTE that long-handled tools are quite expensive to ship, because all the shipping services (FedEx, UPS and US Mail) all now levy a **substantial surcharge** for any package over 48 inches in length. Therefore, it is most efficient to order long-handled tools **“more than one at a time”**, because the shipping cost of shipping, say, **FOUR** long-handled tools is pretty much the same as shipping **ONE**.

So, get together with your friends and put together a “bulk” order — and you'll ALL save money on shipping costs!

HOES

Our best-selling tools are the Dutch-made DeWit hoes: No other garden hoes can match them in quality, ergonomic (user-friendly) design or handle length (a sore subject on most hoes for us tall people!).

I always tell folks: “well, you can always cut off a long handle, but you can’t stretch a short one!”... but I don’t know anyone who has actually cut off one of these super-long Dutch hoe handles. Shorter people can just “choke-up” on the handle, and then of course have the option of much extra reach with the tool.

All hoe heads are made from top-grade Dutch forged steel (approx. 60 Rockwell hardness). People these days are so used to cheap stamped-steel tools (and how fast they dull and wear out), they really have no concept of what a super-tough forged steel like this means. I’ve had several customers say “why, as small as that hoe head is, I’d wear it out in a year!” Maybe with a Rockwell-40 stamped-steel tool, but not these. And it’s not that a Rockwell-60 tool will only last half again as long as a Rockwell-40 tool: once the hardness of a tool is harder than what it is wearing against, the wear of the tool virtually stops. I have been using my Dutch half moon hoe (D10) for 20 years in a 1/4 acre garden and the wear is hardly measurable.

All Dutch hoes feature an offset-tapered socket handle interface, with the handle secured into the socket by a single screw. Handles are easily replaceable and tightenable, a major plus over anything you buy in a hardware store.

	<p>D10 - Half Moon/Swan Neck Hoe (OUR BEST SELLER)</p> <p>Proper use of this hoe usually requires some re-training for most Americans. To use correctly, hold it like you would hold a <u>broom</u> and sweep the weeds off by slicing with the head virtually flat on the ground. This motion with the angle built into the head and the 74” overall length, keeps your back <u>perfectly straight</u> while hoeing (if your back’s not straight, you’re not holding the hoe right--see photo). You can drop the handle a bit if you need a more aggressive angle to chop at a stubborn weed.</p> <p>Head: 6.5” x 1.75” Length: 74” Weight: 2.4 lbs MSRP: \$73.99; Sale Price: \$59.00</p>		<p>D20 - Diamond Hoe</p> <p>Also known as a “scuffle hoe”, this tool has a blade that lays flat on the ground to slice weeds at or just below the surface. Cuts in both directions so there is no wasted movement. This is the fastest hoe going, once you get used to it. Because you’re just essentially slicing the weeds at the base, this tool works best when weeds are small and therefore having the top clipped will likely kill the root. “Pistol grip” at the end of handle for incredibly comfortable use.</p> <p>Head: 7.5” x 1.75” Length: 74” Weight: 2.4 lbs MSRP: \$74.99; Sale Price: \$62.00</p>
	<p>D15 - Half Moon/Swan Neck Hoe</p> <p>Just a wider version of the D10. Good for covering lots of open ground such as with melons, pumpkins, etc., but obviously not as maneuverable as the D10.</p> <p>Head: 9.5” x 2” Length: 74” Weight: 2.8 lbs MSRP: \$82.99; Sale Price: \$67.00</p>		<p>D25 - Push Hoe</p> <p>This “scuffle hoe” is only sharpened on the <u>front</u> for folks who find they like the pushing action better. Also the wider head front-to-back helps this hoe ‘float’ on top of the soil better. Same handle as the D20 above.</p> <p>Head: 8” x 4”, Length: 74” Weight: 2.6 lbs MSRP: \$82.99; Sale Price: \$62.00</p>
	<p>D30 - “Regular” Hoe</p> <p>For those folks who just want more of a ‘standard American-style hoe’, but want it in the best quality forged steel available, we now carry this hoe from DeWit. Features the same easily replaceable socket-type handle as the other DeWit hoes.</p> <p>Head: 6” x 3.25” Length: 74” Weight: 2.8 lbs MSRP: \$69.99; Sale Price: \$59.00</p>		<p>D35 - “Half-Moon” Scuffle Hoe</p> <p>This NEW design of scuffle hoe has all the best features combined: Forged steel, Sharpened on all sides for push OR pull action, Broad head for good control, and the same Pistol-grip handle as the two hoes above.</p> <p>Head: 6.25” x 3”, Length: 74” Weight: 2.7 lbs MSRP: \$86.99; Sale Price: \$70.00</p>
			<p>912 Disc Weeder (Long handled)</p> <p>This nimble little scuffle hoe slides in any direction to slice weeds off. Same high-carbon forged steel blade as other DeWit tools.</p> <p>Diameter: 2.75” Length: 61” Weight: 2 lbs. MSRP: \$29.99; Sale Price: \$28.00</p>

Tools are arranged by BRAND, not tool type. Be sure to look at ALL brands before making your selections!

HAND TOOLS

Made from the same high-carbon forged steel as their long-handled garden tools, the DeWit hand tools also offer some of the most innovative and ergonomic designs in the industry.

	<p>904 - 3 Tine Claw Cultivator Nicely curved claws are made of forged steel, virtually unbendable. Head: 2.75" x 3" Length: 11" Weight: 6.5 oz. MSRP: \$20.99; Sale Price: \$17.00</p>	<p>“Hands and Knees” Series - These three tools are that perfect in-between size for when a full-sized tool is too big, but a single-hand-held tool is too small. Handles are long enough to get <u>both</u> hands on when doing close work on hands and knees, and with high-carbon forged steel heads, they are stronger than most full-sized tools.</p>	
	<p>905 - Weed Popper Very light and nimble, yet extremely strong. Head: 5/8" x 1.5" Length: 12.5" Weight: 5.3 oz. MSRP: \$20.99; Sale Price: \$17.00</p>		<p>F20 - “Perennial Planter” Designed to ‘split’ clumped perennial bulbs, (Holland is the Tulip capital of the world) this is one of the most popular Dutch garden tools on the planet. Head: 4.5" x 4.5" Length: 20.5" Weight: 15 oz. MSRP: \$29.99; Sale Price: \$25.00</p>
	<p>915 (right) 916 (left) - “Cape Cod” Weeders Now the popular New England based design is available with the best forged steel. RH or LH available. “Hook” is sharpened on the inside surface, to slice on the backstroke. Head: 2.2" x .75" Length: 10.5" Weight: 5.3 oz. MSRP: \$31.99; Sale Price: \$27.00</p>		<p>31-3067 - Dewit “Cobra”-Style Weeder Styled after the popular “Cobra” brand weeder, this “steel finger” has the advantage of being made out of the famous DeWit Dutch forged steel. Great for tight weeding and deep penetration. Head: 3/4" wide tip x 5.5" tall (so it goes 5.5" deep), Length: 17.25" Weight: 12 oz. MSRP: \$39.99; Sale Price: \$32.00</p>
	<p>F10 (right) F11 (left) - Hand Hoe Miniature versions of the popular D10 half moon hoe, ergonomically designed for either right or left hand use. Forged steel. BEST SELLERS!! Head: 4.5" x 1.5"; Length: 18.5" Weight: 10 oz. MSRP: \$39.99; Sale Price: \$37.00</p>		<p>919 - Hands and Knees Spade I really like this one. Very strong and nimble. Head: 4.5" x 6.5" Length: 22.5" Weight: 1.4 lbs MSRP: \$43.99; Sale Price: \$38.00</p>
	<p>907 Disc Weeder This nimble little “scuffle” hoe slides on or just under the surface to slice weeds off. High-carbon Forged steel holds an edge like nothing else. 2.75" Diameter, 11" Long, 8 oz. MSRP: \$20.99; Sale Price: \$18.00</p>		<p>F30 - Hands and Knees Fork A great choice when you want to loosen soil, but not be so hard on Earthworms! Head: 3.5" x 5" Length: 22.5" Weight: 1 lb MSRP: \$43.99; Sale Price: \$34.00</p>
	<p>906 - “Korean” style hand Hoe This tool mimics the design of the popular “Korean Hand Hoe”, but is made of the famous Dutch high-carbon forged steel. Sharpened on the curved edge, so it makes a nice “slicing” weeder too. Head: 6" x 3", Length 12", Weight 10oz. MSRP: \$34.99, Sale Price: \$26.00</p>		
		<p>Hori-Hori Japanese Garden Knives (I know these aren’t made by DeWit...but they “fit” here, along with other super-high-quality handheld tools.) Extremely strong, comfortable and multifunctional, these Traditional Japanese-made “garden knives” will do anything from digging to weeding to harvesting greens to sawing thick roots with the serrated edge. Two styles; both come with vinyl sheath.</p> <p>HORI-HC - (High carbon steel) Thicker, stronger...but heavier. Good for rocky soils. Length: 11"; Weight: 11oz; Price: \$23.00</p> <p>HORI-SS - (Stainless steel) Lighter weight, will never rust...but not as strong. Length: 12.5"; Weight: 8oz; Price: \$26.00</p> <p>Replacement Vinyl sheath (fits either knife) Weight: 2oz; Price: \$6.50</p> <p>Replacement LEATHER sheath (fits either knife) Handmade by our friend Karen Stack in NC! Belt-loop “unsnap” for convenience. Weight: 3oz; Price: \$28.00</p>	

AND

MISCELLANEOUS TOOLS

	<p>Dewit E50 Raised Bed Builder Originally designed as a horse stable scraper, this forged steel tool is great for pushing or pulling soil to hill crops or make raised beds - it is so tough, in fact, it is my favorite tool for gravel driveway maintenance! Head: 4"x12", Length: 74", Weight: 4.1 lbs MSRP: \$57.99; Sale Price: \$49.00</p>
	<p>Dewit G30 - Seed Bed Rake Made of forged steel, the 9 super-heavy duty tines are spaced nearly 2" apart - perfect for ripping up and raking organic material out of old seed beds without pulling all the soil out too. Straight neck allows you to flip over and use the back to flatten the bed. Head: 16.5" x 4", Length: 74" Weight: 4.4 lbs MSRP:\$89 Sale Price: \$73.00</p>
	<p>SHW 54819 Long Handled Weed Popper We have gotten a LOT of requests over the years for a tool like this, and SHW makes one! A forged-steel "sharpshooter" blade with nice big "steps" to put your foot on, this will make short work of dandelions, burdock, or any tap-rooted plant. Ash Handle. Length: 42", Blade width: 1.5", Weight: 2.8 lbs MSRP \$49.95 Sale Price: \$43.00</p>
	<p>53080 'Taproot Prybar' Made by the German company SHW, this forged-steel tool is awesome for prying tap-rooted plants / shrubs out of the soil. The foot-rest "bar" at the base doubles as the "fulcrum" when prying. Great for folks involved in invasive species removal, herb harvesting, and of course anything else along those lines (The Germans called is a "Dock Digger" in their catalog) Total length: 49", Weight: 4.9 lbs MSRP:\$69 ; Sale Price: \$59.00</p>
	<p>SHW 53543 Heavy 3-Tine Hoe For heavy soil-breaking work...kind of like a Broadfork that you swing. Forged head with three 9" long tines. Ash handle is curved for excellent comfort and ergonomics, PLUS it is gusseted out at the top for maximum strength. Total length: 48" Width: 7.5" Tine length: 9" Weight: 5 lbs. Price: MSRP \$79 Sale Price: \$69.00</p>

	<p>SHW 53531 3-Tine Hoe When loosening soil, "tined" tools offer great soil penetration with less effort than "bladed" tools, and are LOTS more friendly to Earthworms! This forged-steel tined hoe utilizes the "Eye" hoe design, which SHW augments with an ovalized handle for comfort and a reinforced gusset on the rear of the handle for extra strength. LONG tines for deep penetration. Can be used to harvest root crops, too...this is like a digging fork you can swing! Head: 8.5"x4.75"; Length: 54"; Weight: 2.5 lbs MSRP: \$48; Sale Price: \$42.00</p>
	<p>SHW 54853 Manure Hook / 3 tine Cultivator The German SHW catalog calls this a "Dunghacke"...well, if you can't figure it out, it means Manure Hoe. With 3 forged-steel 7"-long tines, it will rip up packed manure like nobody's business, and makes a great deep-cultivator too. Replaceable ash handle. Head: 8.25" x 8"; Length: 55"; Weight: 3.2 lbs MSRP: \$49; Sale Price: \$40.00</p>
	<p>SHW 53652 "Regular" Hoe If you want an "American-style" hoe, but want it made out of German Forged steel AND with an easily replaceable handle, then this is your baby. Ash handle. Head: 6.5"x 4.5"; Weight: 2.4 lbs, length 68" MSRP: \$43.95; Sale Price: \$36.00</p>
	<p>SHW 53813 "Herold" Forged Digging Spade Excellent German craftsmanship, high carbon forged steel, open-socket "strap type" head/handle interface to allow wood to breathe for best handle life. Replaceable Ash handle with European style wooden T-grip. Head: 7"x11" Total Length: 45" Weight: 5 lbs MSRP: \$89; Sale Price: \$69.00</p>
	<p>SHW 53710 "Scooping" Pointed Shovel The head/handle angles of this tool make it perfectly designed for scooping material up off the ground with a minimum of bending the back; such as moving loose dirt, compost, sand, etc. The head is wider than most typical American pointed shovels, so it will hold more, and the rear edges are bent up to keep loose material from falling off the rear. Not recommended for heavy digging in hard soils, but great for looser stuff. Handle easily replaced, like all SHW tools. Overall Length: 60", Head: 10.5"x 11.5" Weight 4.1 lbs MSRP: \$32.95; Sale Price: \$26</p> 

SHW EYE-HOES / CHOPPING HOES

SHW

The Eye-Hoe (also called Grub, Grubbing or Chopping hoe) is the oldest hoe design in the world, due to the simplicity of the head shape; traditionally, forging the head could be done with crude tools. The 'eye' just had an appropriately-sized stick stuck through it for a handle; as long as one end of the stick was bigger than the eye, it wouldn't come out. The eye-hoes produced by SHW of Germany today are a lot more refined: ergonomic designs, light weight and perfectly fitted handles wedged into place.

The differences between these Eye hoes and others you will find on the market are:

- 1. The SHAPE of the handle...**most have round handles, while these German ones all have Oval handles: like an axe, sledgehammer, or any well-designed striking tool. This is very important, because the way the human hand is shaped, holding an oval handle naturally "aims" the tool head properly, and is much more ergonomic when using the tool for long periods (resulting in less hand fatigue). **Also**, all the handles in the "chopping" series are actually LARGER toward the head for extra strength...you simply don't see this design on the lower cost hoes; it's more expensive to produce a handle this strong. Of course, tightening or replacing a handle is easy - just like a hammer or axe with a wooden handle; just drive a wedge into the top to spread the handle out into the eye. We stock replacement handles.
- 2. Head angles and balance.** The Germans have spent a looong time perfecting these tools...the foundry location where SHW currently resides in the Black Forest has been forging tools since the year 1267! The head angles and balance of these eye hoes is unparalleled, meaning more work done with less fatigue.
- 3. Steel Quality.** We probably don't need to say more here...what kind of quality would you expect from an old German company? I can tell you this: when I hit one of our Kentucky limestone rocks with an SHW hoe, it's usually the rock that gets the chip out of it!!

"Garden" Series

We find this series very popular among women; very strong and durable but lighter than you ever thought a forged chopping hoe could be.

	54534 - Double Chopper Hoe Wide blade and narrow blade make great options for working intensive beds. Head: 3" x 10.5 x .75", Length: 54" Weight: 1.8 lbs MSRP: \$42.99; Sale Price: \$34.00
	54535 - Chopper / Rowmaker Hoe The backside of this nimble hoe is pointed to make rows or break clods. Head: 2.6" x 10.5", Length: 54" Weight: 2 lbs MSRP: \$42.99; Sale Price: \$34.00
	53617 - 3 Tine / Chopper Hoe The stamped-steel imitations in the hardware store pale by comparison. Head: 2.6" x 10", Length: 54" Weight: 1.9 lbs MSRP: \$42.99; Sale Price: \$34.00

Hand Hoes

We find that these short-handled Forged-steel eye-hoes are the best balanced tools of this type on the market.

	54601 - Single Chopper A bit taller blade than the others below, for extra depth. Head: 3" x 5.75", Length: 13", Weight: 1.1 lbs MSRP: \$30.99; Sale Price: \$25.00
	55394 - Double Chopper A wide blade and a narrow blade, for ALL the places weeds grow! Head: 3" x 10.5 x .75" Length: 13", Weight: 1.1 lbs MSRP: \$32.99; Sale Price: \$26.00
	55393 - 3 Prong Chopper The combination of the blade & prongs gives a worm-friendly option! This is the one I have. Head: 2.6" x 10", Length: 13", Weight: 1.25 lb MSRP: \$32.99; Sale Price: \$26.00
	54597 - 'Sang' (Ginseng) Hoe Although we certainly do not encourage the unsustainable (or illegal) harvest of this rare plant in the wild, this hoe is very much the traditional size of the 'sang hoe' in Appalachia. Of course it's a great garden tool too! I love the curve in the handle. Head: 3.5" x 4", Length: 18", Weight: 1.6 lbs MSRP: \$37.99; Sale Price: \$29.00

"Chopping" Series

Thicker handles, reinforced at the top, and heavier blades make this series suitable for heavier soils, roots, etc.

	53313 - Standard Chopper Hoe My personal favorite for a chopping hoe. The narrower head is great in my heavy clay soil. Head: 4.5" x 7.5", Length: 54", Weight: 3.1 lbs MSRP: \$46.99; Sale Price: \$37.00
	53401 - Wide Chopper Hoe The wider head will get the work done faster, if soils are not super-heavy. Head: 5.5" x 7.5", Length: 54", Weight: 3.25 lbs MSRP: \$48.99; Sale Price: \$38.00
	Root Hoe -Heavier, thicker blade for maximum power to chop heavy soils and roots up to 1.5". SUPER-reinforced handle. (shipped disassembled) Head: 4.5" x 8.5", Weight: 4.5 lbs 53566: Length: 54" MSRP: \$58.95 Price: \$ 47.00 53566L: Length: 75" MSRP: \$63.99 Price: \$ 52.00
	Grape Hoe -The 'Big Mama' of hoes, designed for heeling in grapevines. Available with your choice of two handle lengths (head shipped dismounted from handle) Head: 9" x 4.5", Weight: 4.1 lbs (with 54" handle) 54547 Length: 54" MSRP: \$64.99; Price: \$50.00 54547L Length: 75" MSRP: \$69.99; Price: \$55.00
	54528 - Chopper / Root Cutter Hoe BACK BY POPULAR DEMAND: Designed like a miniature Mattock (with a longer handle!), this awesome tool is great for heavy garden chopping (in small spaces!), trail maintenance, root pruning, etc. Nice little 2.5" tall axe blade on the back of the head, for cutting roots...there is no other tool like it on the market that is this high a quality! Head: 2.6" x 10.5" Length: 54", Weight: 3.1 lbs MSRP: \$57.99; Sale Price: \$47.00
	Mattock —Talk about a serious tool! I've found that the 5" wide blade is perfect for making a trench for a 4" drainage pipe - and the axe blade on the back made short work of the tree roots I encountered. Great for general digging in hard soil. Available <u>with OR without</u> axe blade on rear. 53648: With axe blade: Head: 5" x 16.5", Length: 41.5", Weight: 5 lbs MSRP: \$64.99; Price: \$50.00 53655C: Without axe blade: Head: 5" x 7.5", Length: 41.5", Weight 4.3 lbs. MSRP: \$60.99; Sale Price: \$46.00

SHW RAKES, FORKS, AND CULTIVATORS

54859 - Round-tine Leaf Rake

With 22 round spring-steel tines, this leaf rake is the most durable we've found. Nice and stiff too.
Head: 18"
Length: 72"
Weight: 2 lbs
MSRP: \$31.95; **Sale Price: \$26.00**

Debris Rakes

The design is such that by holding the handle at a 45 degree angle to the ground, the tips of the tines lay flat on the ground and it makes a perfect "grass comb" when pulled through the grass, collecting debris in the 'basket' formed by the cross-supports. Excellent for picking up twigs; popular with tree-trimming companies. Also a very good rake for moving soil, due to the density of the tines. All steel head. **2 sizes.**

54619

Head: 4" x 24" wide
Length: 72", Wt: 3 lbs
MSRP: \$40; **Price: \$33**

54623

Head: 4" x 39" wide
Length: 72", Wt: 3.8 lbs
MSRP: \$49; **Price: \$40.00**

54616 - Standard Garden Rake

A good garden rake; better than hardware store quality. Top is flat, so you can flip it over for final leveling. Easily replaceable handle. (Color may vary)

Head: 3" x 16"
Length: 61"
Weight: 3.1 lbs
MSRP: \$27.95; **Sale Price: \$20.00**

54886— 30" Aluminum Hay/Seedbed Rake

This light-weight rake has the neat feature of having an adjustable head angle —adjusts in seconds, by loosening two nuts. This allows the user to select the "perfect" angle depending on their height. The curved tines have rounded tips, to resist digging into the ground while raking hay OR to slide easily across a bed-top without digging in. Makes a great super-lightweight seedbed rake for smoothing out prepared soils on 30" beds. Short sections of fuel-hose tubing can be stuck on tines for row markers.

Head: 30" x 4" tines

Total length: 78"

Weight: 2.3 lbs. Alum / 3.1 Wood

MSRP: Wood: \$69.95; **Sale Price: \$57.00**

MSRP: Alum: \$79.95; **Sale Price: \$66.00**

54929 - "Economy" Aluminum Seedbed Rake

This lightweight rake will make short work of leveling your worked seedbed. Sixteen (16) straight 3" long tines are spaced 1.5" apart and the backside is flat to do the final leveling. A popular trick with these (and the debris rakes) is to stick short pieces of reinforced fuel line tubing (available from any auto parts store) over some of the tines (at your choice of spacing) to drag down the bed and mark out planting rows.

Length: 72"

Weight: 2.6 lbs

Width: 24"

MSRP: \$52.95; **Sale Price: \$44.00**

54650 - Forged Digging Fork

Forged from a single piece of steel. This fork has the longest tine of any fork we offer. Ash handle with T-grip. Handle very easy to change if needed...yes, we stock replacement handles!!

Head: 7.5" x 12"; Weight: 4.6 lbs

Length: 46"

MSRP: \$69.95; **Sale Price: \$59.00**

54530 - 4 Tine Cultivator

My Grandma did virtually all her gardening with a tool like this. Unlike the cheap ones in the hardware stores today, this one is tough forged steel with an easily replaceable handle.

Head: 4.5" x 5"; Length: 56"

Weight: 2 lbs

MSRP: \$46.95; **Sale Price: \$35.00**

Tuber Tools (Round tines OR Flat tines)

The long, curved, forged tines of this tool were designed to actually dig tubers, but it can be used as a deep cultivator as well. Replaceable handles.

Head: 6.5" Wide x 8" long Tines

Length: 56", Wt: 4 lbs. MSRP: \$52.95;

53545 (Round tines) Price: \$42.00

53547 (Flat tines) Price: \$42.00

Compost Forks (Long Handle pictured)

An indispensable tool for any gardener, these are built to last: 5-Tine heads made from German-Forged steel. T-grip handle for comfort & control. Heads are 8" wide with 11" long tines; 3 tines in the center have more curvature to form a "scoop".

54532 (short handle) Length: 44", Wt: 3.4 lbs.

MSRP: \$56.95; **Sale Price: \$40.00** (this version has black/silver heads and stained handles)

53862 (long handle) Length: 54", Wt: 3.6 lbs.

MSRP: \$61.95; **Sale Price: \$44.00**

54509 - Debris / Manure Fork

From shoveling wood chips to mucking out stalls, here's a good, stout, forged 9-tine fork to stay with you, and hand down to the next generation. Easily replaceable handle.

Head: 9.5" x 13"

Total Length: 67"

Weight: 4.5 lbs

MSRP: \$56.95; **Sale Price: \$46.00**

Also available with T-handle (total length 52")

Item # 54509T, MSRP: \$59; Sale Price: \$47.00

SHW Hay / Pitch Forks

If you're tired of disposable Pitchforks with handles that can't be replaced, here you are: Forged forks with easily replaceable European-style tapered-socket handle fittings. Yes, replacement handles stocked.

54513: 3-Tine: Head: 8" x 10.2", Length: 64"
Weight: 2.5 lbs. MSRP: \$39.95; **Sale Price: \$31**

54512: 4-Tine: Head: 9" x 12.2", Length: 64"
Weight: 3.2 lbs. MSRP: \$42.95; **Sale Price: \$33**

From Splitting Mauls to Shovels to Scythes, the German company SHW offers excellent designs and unparalleled quality steel.

Also featuring Sickles from one of Italy's oldest tool forgers:

	<p>53957 – Splitting Maul The unique head shape of this German-forged splitting maul makes its relatively light 6.6 pound head weight incredibly effective (more effective than a conventional-shaped 8 lb.-head maul, according to a customer) AND resists sticking in the wood. The handle is actually American Hickory...the toughest stuff going.</p> <p>Length: 35" Head length: 8.5" Total weight: 8.4 lbs MSRP: \$55.95; Sale Price: \$44.00</p>
	<p>53640 “Cabbage” Knife Well, that's what the Germans call it...although you could cut about anything you wanted with this bad boy!! The hooked blade IS handy for whacking off cabbage heads, though...Blade is German Forged steel; handle is made out of layered leather. It makes a pretty good Machete, too...</p> <p>Total Length: 17"; Blade length: 12" Weight: 1.4 lbs. MSRP: \$47.95; Sale Price: \$38</p>
	<p>Brush Hook/ Brush Axe When a Machete won't cut it and an axe (or chain-saw) is too much, this tool is the perfect in-between, capable of chopping off a 1" sapling in one blow. Popular in Europe for maintaining "hedgerows", I use one for whacking back new tree growth on my fencerows yearly. Blade Length: 11" Two Handle Lengths:</p> <p>54428: Overall Length: 30"; Wt: 3.2 lbs. MSRP: \$52.95; Sale Price: \$41</p> <p>53644: Overall Length: 47.5"; Wt: 4 lbs. MSRP: \$55.95; Sale Price: \$43</p>
	<p>Hatchets These great little hatchets are made of German Forged Steel. Perfect for camping, chores around the farm, or keeping under the seat of the truck for the zombie attack. (Kidding!) The red-painted end on the handle helps you find it in the woods... Ash handle; we stock replacements.</p> <p>SMALL: Length: 14" Head length 5.5" Blade width 3.75" at tip Weight: 1.3 lbs. Item 54272 MSRP: \$30.95; Price: \$24</p> <p>LARGE: Length: 15.5" Head length 7" Blade width 4.75" at tip Weight: 2.2 lbs. Item 54274 MSRP: \$32.95; Price: \$26</p>

Scything: While we don't claim to have the best selection of Scything equipment, these items, which are offered by SHW, represent good European quality at very good prices for some great "starter" scythes. For more specialized/serious scythers, there are websites who specialize in scything equipment, such as www.onescytherevolution.com or www.scytheconnection.com

	<p>54079 — Tubular Steel Snath Wooden lower handle adjusts up or down snath for maximum operator comfort. Has removable "hoop" at bottom...when in place, blade "carries" more material with it. "Factory" angles work best for folks under 6' tall, but tubular steel CAN be bent toward the bottom of the snath (very carefully, so you don't crease it!) to accommodate taller folks. Length: 58"; Curve: 6.5"; Width: 7.5" Weight: 2.6 lbs. MSRP: \$35.95; Sale Price: \$35.00</p>
	<p>54094 — SHW “Brush” Blade Hand hammered blade is short and stout for whacking brush and weeds. Length: 17.5"; Width: 3"; Weight: 1.75 lbs MSRP: \$39.95; Sale Price: \$35.00</p>
	<p>54085 — SHW “Grass” Blade Premium hand-hammered blade is comparable to most Austrian blades. Long and thin, for hay / grass. Length: 28"; Width: 3.5"; Weight: 1.25 lbs MSRP: \$69.95; Sale Price: \$59.00</p>
	<p>Peening Hammer & Anvil; Whetstone For maintaining your scythe blade. 54590 Hammer: 1.3 Lbs, MSRP: \$24.95; Sale Price: \$20 54588 Anvil: MSRP: \$24.95; Sale Price \$20 54089 Whetstone Medium grit. MSRP: \$8 Sale Price: \$6.00</p>

SICKLES: These top-quality forged steel sickles are made in Italy by the Falci company. They feature steel shanks that come all the way through the wooden handle and are bent over, for maximum resistance to the handle coming loose. Smooth sickles are best for cutting grass, weeds, etc. that you are simply letting fall to the ground... if you are HOLDING (harvesting) the material you are cutting off, then see our Serrated sickle. Very few companies make sickles with this quality any more.

SMOOTH: (RH)

16", 271 grams

SERRATED: (can be used RH or LH)

14", 176 grams
#1402500 **\$16.00**

PRUNERS and SNIPS

In addition to the high-quality Bahco tools we have offered for many years, we are pleased to add tools from the American company Barnel to our selection at Earth Tools. Designed to meet the demands of professional users, these are efficient, well balanced, highly dependable tools that are primarily intended for gardening professionals such as vineyard / orchard workers, market farmers, and landscape gardeners. The cutting blades are expertly designed and heat treated to give a sharp, long-lasting cutting edge. On curved-blade models, the off-center bolt gives a clean cut (the wood is not crushed and the fiber is not bruised). The bolt is secured with a nylon padded lock nut, which will not loosen during use. Ergonomically designed handles offer a comfortable grip. Quick release locking/safety catch makes the shears safe for transport and storage.

 <p>P127 P128</p> <p>Serrated Smooth</p>	<p>Bahco Professional Harvest Snips High-quality snips with carbon-steel blades. Choose between long, pointed blades for close trimming work (P128) and shorter, stronger blades for thicker-stalked vegetable harvesting. (P127). The latter also features a serrated counter-blade to keep slick stalks from “popping out” of the blades; our most popular model. Light, strong composite handles are symmetrical for added comfort. Locking latch at bottom. P128: Length: 7.25”, Wt: 3 oz.; Cuts: 3/16” wood P127: Length: 6.5”, Wt: 3 oz.; Cuts: 1/4” wood Either one: MSRP: \$19.95; Sale Price: \$16.00</p>	 <p>807 & 808</p>	<p>Barnel Professional Pruners These feature Forged-steel counter-blades and Japanese Sword-steel blades for maximum strength and durability. Aluminum handles with rubber grips for light weight & comfort, and patented easy-lube swivel bolt for easy maintenance. These also have a unique “auto-unlock” feature, which unlocks the pruners simply by squeezing them. 2 models, for different hand sizes. B807 Hand Size: Medium, Cut: 3/4” Length: 7”, Weight: 7oz. MSRP: \$51.96; Sale Price: \$39.00 B808 Hand Size: Large, Cut: 1” Length: 8”, Weight: 8oz. MSRP: \$54.30; Sale Price: \$40.00</p>
	<p>Bahco P123 “Grape” Harvest Snips Made with the famous Bahco high-carbon steel blades, these are good for cutting much more than grapes...many of our customers use them for vegetable harvesting of plants with larger, stalkier stems. The curved blades and slightly offset pivot bolt provides a “slicing” action to cut through woodier material than the above snips. Cuts up to 3/8” wood. Lightweight composite handles with locking clip. Length: 7.3”, Weight: 4oz. MSRP: \$19.95; Sale Price: \$16.00</p>	 <p>337</p> <p>303</p>	<p>Pro Pruner with Needle Bearing Pivot Joint - NEW! This is, simply put, the nicest pruner we have ever seen. Barnel is the first company to use a needle bearing at the pivot point, giving this pruner the smoothest and easiest action on the market. Has ALL the features: Forged counter-blade, cushioned aluminum handles, replaceable Sword-Steel blade, center-oiler bolt, and even a 2-position lock. Barnel B337 Hand size: Medium, Length: 7.75”, Weight: 9 oz Cutting capacity: up to 3/4” MSRP: 64.95; Sale Price: \$47.00 Barnel B303 Hand Size: Med/Lrg, Length: 8.25”, Weight: 8.9 oz. Cutting capacity: up to 1” MSRP: \$69.95; Sale Price: \$49.00</p>
	<p>Barnel B1330 “Le Petite” Pruner Designed for folks with small hands, this professional-quality pruner features a Japanese Sword-Steel blade and forged counter-blade. Super-comfortable TPR rubber-grip handles over a steel core, for strength. Thumb-lock mechanism. Colors vary. Hand size: Small; Length: 7”, Wt. 7 oz. Cuts to 3/4” wood MSRP: \$21.99; Sale Price: \$18.00 —Various colors available—</p>		<p>Bahco & Barnel Sharpeners Impregnated with diamond or carbide, these sharpeners make short work of honing your cutting tools to a fine edge. The very small size of the Sharp-X makes it easy to get in those tight spots like pruner or lopper blades; the larger model works great on all other tools. Rubber-coated handle for a good grip. Sharp-X: Length: 6”, MSRP: \$20.99 Sale Price: \$17 B-SharpXL: Lgt: 10”, MSRP: \$31.30 Sale Price: \$23</p>
	<p>Professional Scissors: USA-Made, these high-quality scissors will last for many years. Great for Harvest, Floral, Arts, Crafts, Sewing, Kitchen and general use. Stainless steel, with some serrations at the base of the blades to cut tougher stuff. Soft-gel handles; comes with blade sheath. Available in various colors. B3300: 6.5” long, Weight. 2.1 oz., MSRP: \$23.99; Sale Price: \$19.00</p>	 <p>Gulland Barnel</p>	<p>Pruner Holsters <u>Two choices:</u> We have a lovely little holster which is hand-made by Karen Stack of Gulland Forge in NC...it comes with a military-grade carabineer, which clips onto a belt loop or anything like it. <u>Also</u>, we have a Barnel brand holster, which will accept pruners or folding saws, and has belt slots AND a belt clip. Item Gulland-P: 8.5” overall, Price \$28.00 Item BLS914: 9” overall, Price \$15.00</p>
	<p>Scissor Holster: USA-Made, nice, high-quality holster will accept most scissors. Has a “clip” in addition to belt grooves, so if you don’t wear a belt, it will clip over the edge of your pants (or, if clipped onto your belt, it comes off quicker!). Also has a secondary pocket for a sharpener (or a tooth-brush...whatever fits, right?) BLS940: 9.5” x 4”, Weight. 1.5 oz., MSRP: \$16.99; Sale Price: \$14.00</p>		<p>Barnel Pruner/Lopper oil This oil is food-grade, biodegradable and non-toxic, so it is perfect for lubricating cutting tools used on food. It can be used on the blades or the pivot bolts; many Barnel Pruners & Loppers feature an “Easy-lube” pivot bolt that the end of this bottle inserts into. 20 Gr. MSRP: \$6.99 Sale Price: \$6.50</p>

BARNEL LOPPERS, SHEARS...and Other Tools

BARNEL USA
MANUFACTURER

A High-quality lopper plays a significant role in the fast healing of a cut. This is particularly important when cutting and pruning fruit trees. The cleaner the cut, the faster the healing process is complete. Barnel loppers are known world wide for this superior cutting capacity; not only on fruit trees, but for clearing undergrowth and thinning hedges. The cutting blades on Barnel loppers are the patented Bartanium alloy, developed by Barnel. The counter-blade is drop forged to a sharp curved hook that grips the branch firmly and helps prevent slipping. Like Barnel pruners, the pivot bolt and nylon padded lock-nut are off-centered from the point where the blade and counter-blade meet. Thus the cut is clean - the wood is not crushed and the fiber is not bruised. Plus, the pivot bolt has the patented Barnel Easy-Lube feature. Replaceable rubber buffers stop the handles when fully closed. All parts on these professional tools are replaceable, and the Barnel loppers are completely made in the USA.

Barnel Professional Bypass Lopping Shears

Extremely lightweight and highly efficient, the Barnel lopping shears are designed for trimming branches, bushes, undergrowth and for cutting back vines. The counter-blade is forged and stepped to reduce friction to a minimum. The cutting blade features two cutting radii that work at different moments during the cut. The first radius starts the cut with a heavy slicing action, the second finishes the cut with a smooth sliding cut. Anodized aircraft-alloy aluminum handles for strength & light weight.

H20A: Length: 20", Cutting Cap. 1.5", Wt. 2 lbs.
MSRP: \$69.02; **Sale Price: \$54.00**

OR26A: Length: 26", Cutting Cap. 2", Wt. 2.5 lbs.
MSRP: \$104.13; **Sale Price: \$78.00**

OR30A: Length: 30", Cutting Cap. 2", Wt. 2.7 lbs.
MSRP: \$107.52; **Sale Price: \$82.00**

B36A: Length: 36", Cutting Cap. 2.5", Wt. 3.1 lbs.
MSRP: \$132.72; **Sale Price: \$95.00**

Barnel Professional ANVIL Lopping Shears

While the Bypass loppers (above) are the best choice for cutting LIVE wood, Anvil loppers such as these are better for cutting DEAD wood...will cut live wood too, but the anvil action "smashes" the bottom of the branch slightly, so it takes longer for a cut to heal. Both the blade and the anvil are replaceable. Anodized aircraft-alloy aluminum handles for strength & light weight.

LA32A: Length: 32", Cutting Cap. 2", Wt. 2.8 lbs.
MSRP: \$112.95; **Sale Price: \$86.00**

Barnel B3333 Sheep/Garden Shears

The old-fashioned design of this tool had proven itself over hundreds of years...One-piece design; no pivot bolt. Elegant and functional, this tool is not only good for it's traditional use of shearing sheep, but it makes a great garden shear as well for herbs, flowers, twine, etc. High-Carbon steel blades.

Includes Sheath!

Length: 11.75" Blade length: 5" Wt. 11.3 oz.
MSRP: \$20.42; **Sale Price: \$19.00**

Barnel ZF270 Professional Pruning Saw

Top-quality pruning saw with aggressive, curvature-ground Tri-edge hardened teeth for clean finishing. Blade made out of SK4 Japanese "sword" steel, with a hard chrome protective finish. Teeth cut on the "pull". Rubberized non-slip grip. Comes with hi-impact plastic holster with double-roller retention system and belt clip.

Blade Length: 10.5" (total length 17") Wt: 15oz.
MSRP: \$69.95; **Sale Price: \$57.00**

Barnel Z240 Professional Folding Saw

Top-quality folding saw with aggressive, curvature-ground Tri-edge hardened teeth for clean finishing. Blade made out of SK4 Japanese "sword" steel, with a hard chrome protective finish. Teeth cut on the "pull". Rubberized non-slip grip. Blade locks in both "open" and "closed" positions.

Blade Length: 9.5" (folded length 11.75") Wt: 12oz.
MSRP: \$49.95; **Sale Price: \$42.00**

Machete:

This is actually a Fiskars brand. Tempered, High-carbon steel blade and molded rubber grip make this tool both durable and comfortable to use. Imported.

FIS 22: 22" blade, 27" total length, Wt. 1 lb.
MSRP: \$22.95; **Sale Price: \$20.00**

Sheath to fit above machete: \$4.00 (# FOR Sheath)

ZILLI Hand-Held "Jab" Seeder

Back by popular demand! This Italian-made "Jab" type seeder is unique in that it automatically advances the seed-disk at the base of the hopper with every jab into the soil. Perfect for planting through plastic or paper mulch, or through rolled-down cover-crop residue...also great for doing "fill-in" seeding on areas where another seeder missed a spot. Holds almost 1 quart of seeds. Planting depth is adjustable from 7/8" to 2 3/4" deep. Comes with 7 seed disks with hole sizes ranging from about okra-sized seed up to lima beans (NOT for "tiny" seeds like carrots and lettuce...unless you are OK planting several seeds at once!) Even comes with a "blank" disk, so you can drill your own "custom" holes if desired. All parts are replaceable.

31" x 7.5" x 6", 6.5 lbs.
Item # ZILLI 01 MSRP: \$159 **Sale: \$140**

Barnel B1100S Professional Shears

Professional-quality hedge shears with deep sap groove. Serrations at base of blades to capture & cut heavier branches. Aircraft Aluminum handles for light weight + strength. Has "Center-oiler" pivot bolt like Barnel Loppers. Thermo-Plastic Rubber non-slip grips. Replaceable rubber bumpers. Maximum cutting capacity for woody material: 1/4"

Blade Length: 11.25" (total length 26") Wt: 2.8 lbs.
MSRP: \$79.95; **Sale Price: \$62.00**

The Swiss manufacturer Ammann AG offers high quality gardening tools in some specific unique styles. Specializing in hoes with replaceable hardened steel blades, the most popular types being the Colinear (also called “Razor” hoes), Upright (Trapezoidal, or Coleman hoes), and Oscillating (Stirrup) hoes. Another Swiss manufacturer that professional gardeners are familiar with is Glasser; we feel that the Ammann tools offer equal quality at a more competitive price. In late 2009, we expanded our offering of Ammann tools, carrying some of their other unique tool designs. Ash handles for most of the long handled Ammann tools are produced for us by one of our customers in Tennessee.

	<p>403 - Colinear Hoe w/Replaceable Blade Made famous by Elliot Coleman, this “razor blade on the end of a stick” is great for shaving small weeds off at or just below the surface. Extremely light. This model has a replaceable blade, which we stock.</p> <p>Head: 7” x 1” Length: 68” Weight: 1.8 lbs MSRP: \$44.95; Sale Price: \$37.00</p> <p>Replacement Blade Price: \$10.00</p>
	<p>Coleman / Trapezoid / Upright Hoes Another Elliot Coleman design with replaceable blade, a bit heavier than the Colinear so it can do some light chopping and the taller blades can move some soil. Ash handle.</p> <p>4025 Head: 5” Length: 66” Weight: 2.1 lbs MSRP: \$44.95; Sale Price: \$36.00 Replacement blade: \$10.00</p> <p>4027 Head: 7” Length: 66” Weight: 2.3 lbs MSRP: \$46.95; Sale Price: \$38.00 Replacement Blade: \$11.00</p>
 	<p><u>Dibber (or Dibble)</u> Used to poke holes in the soil for quick planting of small starts, bulbs, or larger seeds. The first time I saw this T-handled dibber, I thought the handle was on crooked. Upon using it, I realized that the slightly “crooked” handle is more ergonomically correct for less wrist fatigue. However, some folks prefer a dibber <u>with-</u> <u>out</u> T-grip handle, so we now carry it this way as well.</p> <p>Length: 11”, Width: 5” OR 1.5” Weight: 0.3 lbs Price: \$9.00 with T-grip, \$8.00 without</p>
	<p>Oscillating / Stirrup Hoes Also known as a “hula-hoe”, these hoes have a hardened spring-steel blade that cuts in both directions for high efficiency. Unlike a fixed-blade ‘scuffle’ hoe, this head has a limited-swivel joint at the top which gives the blade an aggressive entry angle into the soil both pushing and pulling, without changing the angle of the handle. Therefore, it works the soil deeper than a ‘scuffle’ hoe (like our Dewit Diamond hoe), but by the same token it requires more energy to use. Ash handles.</p> <p>4045 Head: 5”, Length: 66” Weight: 1.8 lbs MSRP: \$47.95; Sale Price: \$40.00 Replacement Blade: \$10</p> <p>4047 Head: 7”, Length: 66” Weight: 2.1 lbs MSRP: \$49.95; Sale Price: \$42.00 Replacement Blade: \$12</p>
	<p>EU1570 Ammann Digging Fork Extremely unique design: the head is offset an inch <u>behind</u> the handle, for better tool ergonomics...VERY comfortable. Tempered steel tines, long handle with oversized T-Grip at top you can get two hands on. This fork is probably the strongest one we have...it withstood the acid test in our Sun-baked clay lawn in the drought of 2012, with our (ex-NFL [no, I am not kidding!]) sales manager Chris TRYING to break it!! Length: 51” Head: 7.5” x 11.5” Weight: 5 lbs. MSRP: \$89.95; Sale Price: \$74.00</p>
	

Rogue Hoes (America)

Made in Kansas from recycled agricultural disc blades, this hoe line has a variety of good designs and reasonable prices (no overseas freight involved!). Basically, the best domestic hoes we've found. Handles on Garden and Scuffle hoes are attached in conventional crimped-ferrule style (not replaceable), but the oversized ferrules seem to make the head junction more durable than any other American hoe. All hoes sharpened on 3 sides. (these hoes are good for seasonal hired help: better than average quality for good efficiency, but not a huge investment in cases where they might get lost).

Garden Hoes

00G

Triangular head tapers from 3" down to .75"

Length: 62"

Weight: 2.1 lbs

Price: \$35.00

40G

Head: 4" wide

Length: 62"

Weight: 2.2 lbs

Price: \$35.00

Head: 3" wide

Length: 15"

Weight: 1 lb

Price: \$29.00

OTHER BRANDS & TOOLS

Following is a selection of high-quality tools from the USA, Japan, India and Italy to round out our tool selection.

	<p>Gulland Forge Broadfork</p> <p>We are extremely pleased to have forged a partnership with Larry Cooper, owner of Gulland Forge, producer of his completely hand-made Broadforks, which we feel are <u>the finest on the market.</u></p> <p>It is unique in that the five round tines are forged to a continuous curve and have symmetrical forged points, both of which aid greatly in reducing friction during penetration into the soil. Tennessee-made Ash handles are affixed with stainless-steel lag bolts in large diameter round sockets...no wedging or loosening up. We tested this tool in our Clay soils against the Johnny's™ Broadforks, and we found even our Standard model to be tougher and superior in design. (NOTE: Johnny's™ claims 10.5" tines, but this is a misrepresentation...their tines only protrude about 9" <u>below their frame</u>, which means only 9" of soil penetration...the same as our Standard models.)</p>	
 <p>Continuously curved Tines</p>	<p>PLEASE NOTE: A Broadfork is NOT a substitute for a "digging bar", or a pickaxe or mattock...if you are performing <u>initial</u> tillage [breaking sod] on heavy soils, or have large rocks to pry out, this is NOT the correct tool.</p> <p>3 SIZES AVAILABLE:</p> <p>"Standard": Overall height: 57" Overall Width: 21", Tine Width: 17.5" True Tine Length: 9.5"; Weight: 15 lbs Item # BF 15 Price: \$205.00</p> <p>"Standard with Gussets" Overall height: 57" Overall Width: 21", Tine Width: 17.5" True Tine Length: 9"; Weight: 16 lbs Item # BF 16 Price: \$235.00</p> <p>"Big Bertha": (Gusseted tines) Overall height: 59" Overall Width: 22.5", Tine Width: 18.5" True Tine Length: 11.25"; Weight: 19 lbs Item # BF 18 Price: \$255.00</p> <p><i>For tips on proper use of these fine tools, YouTube Gulland Broadforks or go to gullandforge.com</i></p>	
 <p>Gusseted tines for Extra strength on "Standard with Gussets" and "Big Bertha"</p>		<p>Wilcox Trowel—This is, simply put, the most indestructible trowel we've ever found. Aside from losing it, you'll never get rid of it. A simple yet brilliant design made from a single piece of stainless steel results in a trowel that simply can't be bent and is completely corrosion-proof. Heavy-duty rubber handle grip with leather thong for hanging. Even better; made in Iowa!! Blade marked in inches and centimeters.</p> <p>Size: 11" x 2.75"; Weight: 10 oz. Item # WILCOX Price: \$16.00</p> <p>Trake</p> <p>Now produced in India, this ergonomic and multi-functional tool is cast from solid aluminum for rust-resistance and light weight. Blade marked with depth measurements.</p> <p>Length: 17" Weight: 11 oz. Item# TRAKE Price: \$17.00</p>
		 <p>Spear Head Spades These Connecticut-made shovels are unique in that they offer a narrow head for easy penetration, and a WIDE step, so the effort needed for using these shovels is very low. Tempered high-carbon/manganese steel heads, reinforced fiberglass handles with a UV-inhibitor for long life. <u>VERY popular for people with smaller stature</u>, because of their light weight and ease of use !</p> <p>SH Spade-D (with D-grip handle): 41" long, weight 3.4 lbs. Price: \$46 SH Spade-L (long straight handle): 59" long, weight 3.8 lbs. Price: \$48</p>
